

Comprehensive and Integrated Concrete QA/QC System

- **Concrete cubes are being tested extensively and in high volume in the Construction Industry. Hence it is to the benefit of our clients that these tests are done with greater testing accuracy and efficiency.**
- **Cast Laboratories is embarking to have a new enterprise system called 'Comprehensive Integrated Concrete QA/QC System' (CICQS).**
- **It's an innovative IT System that utilizes current Info-Communication Technology (ICT)**
- **With CICQS, Testing Labs and RMC can have a total cube testing management system that will manage the following process:**
 - **Job Request Creation**
 - **Cube Testing**
 - **Cube Test Approval**
 - **Test Report Approval Notification**
 - **Profile Management**
